

What is the best way, or ways, to use Shungite?

Hi Julie, shungite is most effective when worn on your person. We recommend Seven grams or more.

How did you come up with this invention? Were you trying to do something else? The other question is, does my name need to be on the wall all the time that this service is on?

Hi Diana, yes, the FLFE inventors were working on a Nikola Tesla–based zero-point energy device or free energy machine with the aim to produce electricity from the quantum field. They noticed the high-consciousness field that was generated and learned how to activate these fields remotely in any location using a unique identifier (phone number, address, or photo).

Do you have any experience with its impact on trees or plant life on our property?

The FLFE service is designed to help all living beings, so as a result the plants, trees, and animals/pets benefit from it too.

Is it possible for AI-created music (sounds good and addictive) to disrupt the work that FLFE did over months? And if so, how long does it take to be fixed again? It has been almost a week, but I am not at peace.

Hi Mila, FLFE works often like an energetic trampoline. So if you are feeling low from listening to AI music, for instance, you can “bounce back” that much quicker to a positive state. I recommend trying your boosts, staying well hydrated, and setting intentions, which can be enhanced with the “Magnetizing Process” in your customer portal.

With the number of people that join this service, how does FLFE have the bandwidth to focus on individuals?

Hello Jonathan, it is a quantum technology, and it works multidimensionally, so it is easy for it to support all our subscribers. Also, our own research has shown us that the FLFE energy works well with the practice of intention setting.

Is it a bad idea to use both cell and property boost on the same day?

Hello Shukri, you can use the boost any time of the day, as you have one 600 for home or 650 for phone boost available. You can use them every day. I would suggest using them at separate times.

What about electrolyte balance?

Hi Patricia, electrolytes are essential for vitality and staying hydrated, which allows the most energy to be received from FLFE. You can increase the amount of fresh fruits and vegetables or look into supplements for more support.

What works better: drinking plain water, water with electrolytes, or water with lemon and salt?

I would say all three would be better at different occasions. I always listen to my body and what it wants. As per that, I add electrolytes or salt or aloe vera juice.

Can we manifest faster at 570?

Hello Shahla, I believe manifestation depends on our intentions and our ability to receive. Yes, at a LOC of 570 a lot more energy is available for you. So I would say the quality of your intentions also matters.

How do you use FLFE to clear the residual energy/memories that are in a house, furniture, car, etc.? I heard on one of your videos that drywall holds energy from past events that took place.

Hi Julie, land clearing is one of the programs built into the FLFE system. It removes stuck energy from the past history of your house and land. Allow for around two weeks (the free trial period) to do this process.

What are the benefits of the scale and moving LOC between 400–570? I am just a bit confused about what I would use it for.

Hello Shamir, we use Dr. David Hawkins' scale of consciousness and those are the

different levels. As the level goes higher, you have more energy available. Clayton is answering some part of your question.

Is this similar to being in the zero point?

Hi Shahla, yes, exactly. Zero point is also termed the quantum field. FLFE energy comes from the zero-point field.

How does it compare to Reiki? Thanks.

It is pretty much similar to Reiki. Our service holds all those intentions 24/7 by maintaining the high-consciousness field.

Where can I find sleep programs?

Hi Carol, sleep support is one of the built-in programs in your FLFE service. You can see some more details of all the programs here: <https://www.flfe.net/flfe-services/flfe-property/>

Once my property gets cleared of residual energies, would it be enough to just have the FLFE on my phone? How does the property FLFE continue to work, and what do people notice? I will for sure keep it on my phone but wonder if I need both; I live alone in a house.

Hi Julie, the FLFE service for the home has three additional programs than the mobile phone service. The additional programs are for geopathic stress, clearing negative land history, and disembodied beings. Since the phone is moving, we cannot have those on the phone service. I would say go by your own experience and decide accordingly. Personally, I like to have both services.

My home is currently going through renovations due to a water leak. Will this energy boost help positively affect repair crews to get things done quickly and efficiently? I have three rooms, including a kitchen, with extensive repairs ahead.

Hi Marilyn, yes, definitely. The coherent energy allows people in the field to think and work

with more focus and clarity. You can encourage anyone who is feeling thirsty to stay hydrated for the most personal benefits.

Can you use it to send blessings to someone or people that live far, far away?

We cannot send this energy to someone; however, just holding them in your mind and having a loving intent will definitely make a difference.

I know Reiki. Would FLFE make my Reiki healing energy more powerful?

Hi Diana, yes, it could. FLFE service is often compared to distance Reiki, as they both work through the quantum association process with a unique identifier. If you notice a significant difference with your clients while in the FLFE field, it would be great to receive that feedback also. Many energetic healers have subscribed to FLFE to support the work they do.
